12-340842	1 shredder, 1 pallet of water, 1 ice chest, 5 25 ft extension cords, 2 50 ft extension cords, 10 Power strips	Routing	Approved By Chief Kidd (WC Glanville)
12-340862 (TX)	Mobile Cooling Station (Bus Acceptable)	Filled	Filled by Bus 51

16. COMMODITY DISTRIBUTION

Two PODS are currently being operated in the community. One at the Church and the other across the bridge. Commodities are being ferried across in hand carts.

18. STATUS REPORTS

MASS CARE

Priorities:	1. Provide efficient, effective assistance to individuals and families affected by the flash flooding disaster in an accessible location. 2. Facilitate coordination and real-time information sharing between participating organizations responding to flash flooding impacts. 3. Identify and address gaps in goods, services, and recovery resources offered to flood-affected communities. 4. Ensure the safety and wellbeing of all staff, volunteers, and visitors at the resource center.
Actions:	•A Mass Care Branch has been stood up to support recovery efforts. Travis County HHS and APH are coordinating on these operations. Chris Crookham is currently the acting Mass Care Branch Deputy. Additional ELT support has been requested to serve as EOC Representatives over the weekend. •CHWs have been taken off standby. Further requests for assistance will be sent as necessary. •ATCMRC remains on standby to assist with the Recovery Resource Center. •PHEP staff members will remain on site at the Flood Recovery Resource Center through the weekend to assist in overseeing the operation.
Service Impacts:	Bridge is out, preventing people from reaching the recovery center or transporting items back to their homes.
Challenges:	We need an IAP, meeting cadence, the ICS structure, etc.
Notes:	0

TRANSPORTATION

Priorities:	1. Continue to provide shuttle transportation 2. Provide transportation to shelter as needed.
Actions:	N/A
Service Impacts:	N/A
Challenges:	No known challenges

19. WEATHER FORECAST

NWS Office = EWX, Zone = TXZ173 Fire Weather Planning Forecast for South Central Texas National Weather Service Austin/San Antonio TX 129 PM CDT Fri Jul 11 2025
DISCUSSION
Generally quiet weather conditions will persist across the region the remainder of today, with minimal rain chances
Cannot rule out a stray shower or two with deep moisture still recovering thanks to the help of a modest LLJ transporting abundant Gulf moisture into the area
At time of writing, isolated showers and storms have streamed in from the south into portions of the Coastal Plains
Increased moisture and an upper disturbance will bring 20-40% chances for rain back into the forecast during the duration of the weekend
Saturday's rainfall will likely focus along and eastward of the I-35 corridor with Sunday looking more probable for the Southern Edwards Plateau eastward across the Hill Country to the I-35 corridor
Minimum relative humidities will generally range from 30-40% west to 50-60% east with the prevailing south to southeast winds through the forecast period
No fire weather concerns are expected in this forecast period
